

On-Line our new website

We present all our cranes with a special section that offers, in addition to **representative images, all useful technical information and select videos of our cranes at work.**

Discover the new section "**Configure Your Crane**" which allows you to build the crane nearest to your needs in a easy and fun way.

The News section will keep you updated on the main news of our company.

Wishing good navigation, the **Valla** staff thanks everyone for your kind attention.
