# Four more new Vallas

Manitex Valla will unveil two new 16 tonne and two new 18 tonne all electric pick & carry cranes at GIS in Piacenza this October.

The four models are the 16 and 18 tonne V160R and V180R radio/pedestrian controlled models and the 16 and 18 tonne V160RC and V180RC cranes with cabs. They fit into the range neatly between the new 13 tonne V130RX and current 21 tonne V210R.

The four new cranes

The company has not supplied photos or details, of these new cranes which are in addition to the new 4.6 tonne V46 R and the 13 tonne V130 RX which the company announced in July. See: [New Valla radio controlled cranes](#).

We hope to be in a position to provide a great deal more detail over the next week or so.
